

### **Role Profile**

Investment Analyst (Energy)

### **Location**

Gloucester, GL3 4AH

### **Salary**

£30,000 per annum DOE

### **Contract Type**

Permanent / Full-Time

Blackfinch Group is an award-winning investment specialist. Built on over 20 years of investment track record, the name Blackfinch first came into being on the anniversary of Darwin's birth, 12th February 2013. A trusted provider, we work in partnership with advisers. Our businesses cover tax-efficient solutions, early stage investing, managed portfolio services, property financing and renewable energy. As an environmental, social and governance (ESG) investor, we work for a positive impact. We're proud to be entrusted with over £700 million in assets under management.

## Key Accountabilities

As an Investment Analyst in our Energy team, your responsibilities will include:

- Updating, maintaining and managing operational valuation models, sourcing and validating the relevant input data
- Liaising with external advisors to provide information related to their report on our valuations
- Liaising with and advising senior management on valuation assumptions
- Ensuring integrity of operational valuation models
- Producing scenario and sensitivity analysis
- Liaising with and advising our share price valuation team on implications of valuations for share pricing
- Reviewing our full suite of models, making recommendations for and overseeing improvements
- Providing support to our Origination and Execution Team

## Skills & Qualifications

To be a successful Investment Analyst you will hold a degree 2:1 and have an excellent academic record. You will possess first-class communication, written and interpersonal skills and strong quantitative analytical ability. In addition, demonstrable organisation skills, accuracy and astuteness for detail are key for this role, as is good commercial awareness and judgement.

You will ideally be financially literate; comfortable with understanding, interpreting and analysing financial statements i.e. Profit & Loss, Cashflow and Balance Sheet and ideally have experience of undertaking valuations of renewable energy assets using financial model templates. Having some knowledge of renewable energy technologies and the wider energy policy framework, or having demonstrated a strong interest in the subject area would be beneficial.

Having some understanding of key investment and project finance concepts, including discounted cash flow (DCF), net present value (NPV) and internal rate of return (IRR) analysis as evidenced through a professional qualification or working towards a suitable qualification or desire to sit appropriate professional exams would stand you in good stead.

You will be self-motivated to achieve, supporting the team with enthusiasm, tenacity, resilience and ambition. To be successful you will thrive on developing your knowledge and will be passionate about studying through internal and external training and qualification to learn more about our industry and products.

For talented individuals who are seeking to realise their career ambitions with us, we will actively support your knowledge growth through working with our experts and develop your technical abilities through sponsorship of qualifications. For those who show exceptional desire to achieve, we offer career progression and opportunities to develop not only as technical managers but also as people managers.

If you believe you have the skills and experience for this role, we'd be interested to hear from you.

Apply by sending your CV and any other supporting documents to **HR@blackfinch.co.uk**.

If you require any further information about this role, we're here to help, contact us on 01452 717070.

## Our Values

At Blackfinch we're working to make a difference in the world. We partner with advisers to meet client and business aims. Inspired by the work of Charles Darwin, we're named after one of Darwin's finches, which influenced his theories of evolution.

Our values of 'adapt', 'evolve' and 'thrive' run through everything we do. We continually adapt to changing markets, providing evolved products so that our customers can thrive. These values inform our work as an ESG investor, working towards a more sustainable future.

Offering a supportive environment, championing continuing professional development and sponsoring staff for qualifications.

One of the friendliest businesses in financial services, supporting our people, customers and investee companies.

Providing opportunities to progress plus to take up benefits, and to get involved in sponsorship and charity work
